AI ENABLES CONVERSATIONAL INTERFACES

The North Face's Expert Personal Shopper (XPS) engages customers in a discussion, helping them understand which products meet their needs on their ecommerce site.

Success: Customer engagement averaged two minutes in length and the platform had a 60% click-through rate for product recommendations.

AI PROVIDES REAL-TIME SUGGESTIONS

Textio is an advanced machine learning platform for writing that provides real-time suggestions that make job postings gender neutral and more appealing to candidates.

Success: Hiring teams who maintain a Textio Score of 90 or higher attract an applicant pool that is on average 24% more qualified and 12% more diverse. Meanwhile, vacancies using Textio are filled, on average, two weeks faster.

Sephora offers a chatbot on Kik.
When using the bot for a survey with
customers, it had a 40% completion rate –
considerably higher than similar campaigns
on other platforms.
